Aquinas High School

Degree

Diploma

Year

2010

Grand Canyon University

Early Childhood Development courses

2019

*** A resume may be attached to show additional education and work experience.*

Describe your involvement in the community (Include civic clubs, volunteer activities, service organization, etc.)

As an active member of our community, I am currently the PTF President for Calvary Christian Academy. I have organized different events that are open to all community members especially our youth. As a local Realtor, I love connecting with our neighborhoods and community members striving to make our city beautiful, welcoming and accomodating of those who reside here. I have assisted with gathering items for community events such as the Toys for Tots, #You Matter yard sales, clothing drives and seasonal toy drives for our local community outreach programs.

List additional qualifications or experience you believe qualifies you to be on a Lake Havasu City Board, Commission, Committee

As a mom and long time lover of the outdoors, I believe my experiences of growing up in a small town that thrived on outdoor experiences and tourism are something I can use to my advantage in this position. I know that with our weather and current facilities we have to be creative to keep our children safe while teaching them the importance of staying active and learning their way around our surrounding desert, river and lake. I have previously coached youth sports for over 10 years, and have taught my own son the importance of being involved in our community in order to assist in its growth.

Why do you want to serve on the Board, Commission, Committee you are applying for?

I would love to serve on the Parks and Recreation Advisory Board because I think it is important to have board members who are active in our community, have a love for supporting our youth and the families raising them. We have to plan for the longevity of our city and building programs and the necessary infrastructure to allow our children to flourish in this climate only makes sense. I am a mother to a five year old and seeing the lack of events, activities and spaces to take him to year round is a huge issue. We have a large population of children being raised by family members that are not their biological parents and we have to be able to offer them support and outlets for the youth. Gone are the days of keeping children inside, they need to be able to explore, learn, meet new friends for social and emotional growth. While our summer programs work, there is always room for improvement especially when it comes to staffing and spaces/availability. This is how I want to contribute to the growth and long term plans for our city, it starts with our youth who truly are the future of our city.
