### MEMORANDUM

**Date:** March 29, 2019  
**To:** Greg Froslic, P.E. Community Investment Director  
**From:** Dustin Salisbury, Project Manager  
**Subject:** Tank & Booster Station 1C Rehabilitation & Replacement  
Project Nos. WT7440, WT7480  
Lowest Responsive Bidder – Technology Construction, Inc.

We have recently performed a review of the due diligence performed by Atkins Engineering, of the bids received for the above referenced project. Their review was quite thorough, and we are in agreement with their findings that Technology Construction, Inc. is a responsible and responsive bidder. Attached is a copy of Atkins' recommendation for reference.

We recommend awarding WT7440, WT7480 Tank & Booster Station 1C Rehabilitation & Replacement, to Technology Construction, Inc. in the amount of \$3,479,575; which is \$198,713.22 (6%) above the \$3,280,861.78 Engineer's Estimate.

  
Dustin Salisbury  
Project Manager
