

London Bridge Composite Squadron
PO Box 1304
Lake Havasu City, AZ 86405

Steve Johnson
Airport Manager
Lake Havasu City Municipal Airport
5600 Hwy. 95 N.
Lake Havasu City, AZ 86404

Mr. Johnson,

This letter is in regards to the renaming of the road leading to the hangar area of the airport, currently Hangar Way, to George Molitor Way. Lt Colonel George Molitor was a huge influence to the community and the airport. He was a leader and instrumental in obtaining the Charter for the London Bridge Composite Squadron 501 of the Civil Air Patrol in 1984, and worked countless hours to promote the program in the schools and the community. He was also involved in 100's of searches and finds throughout his Civil Air Patrol career. He worked with all of the other organizations that operate at the airport that promote aeronautics and community events. Because of his commitment to CAP, the squadron has had many cadets enter the military in all branches, as well as being accepted to the military academies in a few cases. The squadron has also had some cadets enter the aeronautical programs at Emery Riddle and ASU. Everywhere Lt. Colonel went throughout the community, he represented the CAP and deserves a tribute to his CAP and community involvement.

Sincerely,

Jeff Sayre, Capt. CAP
CAP Squadron 501
